

Excision 321200095 - Quick Action Clamp 200mm 95mm Depth

Product Description

The World's best welding clamp! This extremely heavy duty clamp is a tool your Grandchildren will inherit. The unique design gives you over 70% more clamping force than heavy duty conventional F-clamps.

- The Unique internal ball bearing removes friction allowing greater precision and more clamping force
- Completely sealed thread means no welding slag damage
- Totally sealed means permanently lubricated
- Dependable braking system (hardened steel) for total confidence
- Trapezoidal thread means more force for clamping and more ease for release
- Suited to all environments and applications including welding, working with fluids, humid or salty atmosphere
- Patented
- Lifetime Guarantee
- Made in Spain

- Clamping Force: 800kg
- Solid Bar: 30 x 8mm
- Bar Opening: 200mm
- Jaw Depth: 95mm
