Stabila LD220 - Laser Distance Measurer 30m

Product Description

Compact, handy and user-friendly, with four basic functions for measuring up to a distance of 30 metres. The LD 220 is a professional entry level tool for the most frequently needed measuring tasks, giving you accurate results and ultimately saving time and effort.

Features

- Compact, easy-to-use laser.
- 4 basic measuring functions: length, area, volume and continuous measurement.
- Calculates measuring results quickly.
- The large digits make it easy to read.
- Impact-resistant housing with shock-absorbent STABILA soft grip casing.
- ISO-certified distance measurer – the measuring range (0.2–30 m) and accuracy specifications (± 3.0 mm) fulfil international standard ISO 16331-1.
- Protection class IP 54: protection against dust deposits inside and against spray from all directions.

Specifications

- Laser Class: 2
- Output: < 1mW
- Laser Wavelength: 635 nm
- Accuracy: ± 3.0 mm
- Measuring Distance: 0.2 - 30m
- Battery Life: up to 5,000 measurements
- Batteries Included: 2 x AAA
- Protection Class: IP 54
