

Milwaukee M12FBS64-0 - 12V Band Saw (Tool Only)

Product Description

The M12 FUEL™ Band Saw utilises a POWERSTATE™ Brushless Motor and Constant Power Technology for fast cuts and has a cutting capacity of 63.5 x 63.5 mm (2-1/2" x 2-1/2"). The lightweight design, at only 2.7 kg plus M12™ REDLITHIUM™-ION Battery (sold separately) is optimised for one-handed use and is suitable for overhead cuts. The M12 FUEL™ Band Saw features integrated blade covers, making it suitable for one-handed use while offering a larger capacity than the previous generation M12™ Band Saw. The improved performance, lightweight design, one-handed capability, and increased capacity enhance your productivity while lowering fatigue. The band saw is equipped with proprietary composite material to better protect the tool from drops and debris, with crush zone barriers that absorb impact on the job site. A variable speed trigger and an LED work light provide maximum control to ensure accuracy of cuts. An integrated rafter hook allows for easy storage between cuts. The M12 FUEL™ Band Saw is compatible with Milwaukee's 776 mm Band Saw blades (48390630 8/10 TPI Compact Extreme Metal Band Saw Blade & 48390631 12/14 TPI Compact Extreme Metal Band Saw Blade).

Features

- POWERSTATE™ Brushless Motor
- REDLINK™ PLUS Intelligence enables advanced communication between your batteries and tools, allowing for unmatched levels of performance, protection, and productivity
- Maintains cut speed under load
- Variable speed trigger
- LED light illuminates work surface for increased accuracy and productivity
- Dual-actuation trigger
- Lightweight, balanced body design suitable for overhead cuts
- Rafter hook
- Proprietary composite material and crush zone barriers provide long-lasting protection
- Cut capacity of 63.5 x 63.5 mm

Specifications

- PLATFORM: M12 FUEL™
- VOLTAGE: 12V
- SMPM (SURFACE METRES PER MINUTE): 0 - 173.5
- LED LIGHT: Yes
- BLADE LENGTH: 776mm
- VARIABLE SPEED TRIGGER: Yes
- WEIGHT: 2.7kg (Tool Only)
- WARRANTY: 5 Years
