

## Vacmaster VMVQ1220SC - Wet/Dry Vacuum 20L 1250W S/S Domestic

### Product Description

---

#### Features

Engineered for maximum extraction of dirt, dust, sludge or water, it offers a multi-functional cleaning solution for your garage, workshop or home without compromising on suction. With the addition of an on-board power socket, you can also connect up power tools and extract dust as you're working. Use it to capture everything from dust, to rubble, to gloopy water blocking a sink. With this Vacmaster you can even switch the hose to blow instead of suck to make sweeping quick and easy. All this technology combined makes this Vacmaster wet and dry vacuum cleaner an essential tool for any DIY enthusiast.
