

## Dalluge 04251 - Da Bar Scraper Bar 10"

### Product Description

---

These popular Scraper Bars were created in Japan to Dalluge Tools' highest specifications and are ideal for removing molding and trim work. The 04251 is 10" in length. Thinner and lighter than traditional Japanese bars, Da Bars feature flat claws that slip easily under nail heads to minimize damage to wood surfaces. Forged and tempered for strength, the rocker head provides excellent leverage while the body has rounded edges for comfort and safety. All Dalluge Da Bars have a chrome finish. MADE IN JAPAN.
