

Renegade RIHT3000-9 - Pressure Cleaner 3000 PSI 6HP Honda 10m Hose Brass Pump Head

Product Description

This Renegade Industrial petrol powered Pressure Washer is sure to pack enough power to make any size job a breeze. Fitted with a quality Brass and Alloy pump and powered by a 6.5HP Genuine Honda engine, this compact cleaner is able to deliver a continuous 9L/min flow at 3000psi. Coming complete with a inbuilt detergent compartment and selection of nozzles it is suited to any job you can throw at it. The quick connect fittings make attaching the hose, gun and nozzles an instantaneous and easy job. All parts are able to be stored with the cleaner, keeping them close to hand at all times! Maintaining this Renegade Industrial 3000psi Pressure Washer couldn't be easier, with ample access to all oil ports and filters. The easy sight window allows a convenient view on oil levels for your ease of use. The genuine Honda motor is built to ensure reliability and a long life! Comes complete with puncture resistant rubber tires, a 10m PVC steel reinforced non-marking hose, wide selection of nozzles and detergent compartment conveniently placed with the machine.
