

Milwaukee M12SPL0C - M12 Green 360 Deg. Single Plane Laser (Tool Only)

Product Description

The M12™ Green 360° Single Plane Laser provides all-day runtime and uncompromised visibility. The user will benefit from 30+ hours of continuous runtime when paired with an M12™ REDLITHIUM™-ion 4.0Ah Battery (sold separately) for ultimate productivity. The high-intensity green laser offers superior visibility with up to a 50m range for long-range applications. The 360° horizontal plane is ideal for setting drop ceiling elevations, soffits, or easy leveling of large spaces with one tool. The tether ready lanyard hole is great for tying up the MILWAUKEE® M12™ laser, eliminating drops. The magnetic laser level has an integrated bracket with amplified rare earth magnets for a stronger hold that will not slide on steel studs. The integrated hang hole makes setup easy and efficient in any environment. As a part of our industry-leading M12™ System, this 360° laser level is compatible with all M12™ Batteries.

Features

- Up to 30+ hours of runtime on a M12™ REDLITHIUM™-ION 4.0Ah Battery
- Tether ready lanyard hole eliminates drops
- Amplified Rare Earth Magnet offer maximum hold on steel studs
- High-intensity green laser beams
- 360° horizontal plane is ideal for setting drop ceiling elevations, soffits, or easy leveling of large spaces
- 50m range with detector

Specifications

- IP RATINGS: IP54
- WARRANTY: 3 year
- LOCKING PENDULUM?: Yes
- SELF-LEVELING?: +/- 4° Tilt
- ACCURACY: +/- 3.18mm @ 10m
- WORKING RANGE?: 38m
- RANGE WITH DETECTOR?: 50m
- THREAD MOUNT?: 1/4"-20 & 5/8"-11

Includes

- (1) M12 SPL

- (1) Carrying Case
