

Cabac CT200BK/100 - Cable Ties - 200mm

[Product Description](#)

Nylon Cable Tie UV Black - 200 x 4.8MM 100 PK

The halogen free range of standard nylon cable ties meet the most basic of cable tie needs, with choices suitable for a wide range of size and strength requirements.

The one piece, injection moulded construction provides maximum strength and adjustability for securing all sizes of bundles. Extra features such as rounded edges and bent tip design make installation fast, easy, accurate and secure. Installation tools are not required but are suggested where controlled, uniform tension and cut-off applications are desired.

Note: Exterior applications should use black (UV stabilised) ties.

- Loop Tensile Strength: 22kg
- Bundle Diameter: 50mm
- Length: 200mm
- Width: 4.8mm
- Thickness: 1.3mm
- Pack Qty: 100
