

Cabac FTCM30 - Fish Tape - 30m - Fibreglass Cablemaster

Product Description

CABLEMASTER Fibreglass Fish Tape Professional 30M

CABLEMASTER Fish Tape is a top end professional fish tape, made from pull-truded glass with a special polypropylene outer coating with low friction, and high abrasion resistance.

- Glass is non-conductive, increasing safety
- The composite fibreglass rod, tracks in straight lines down conduits, unlike plastic equivalents, which spiral
- The glass rod is highly resilient to bending and shear stresses, allowing it to turn in small radiuses
- The glass rod can be repaired if it is broken, using repair kit below
- Nominal maximum load: 100kg
- Weight: 1kg

Supplied with rod ends on both ends of the tape and a bullet pulling eye.
