

Cabac HVS5-60P - Screwdriver Phillips No.0 x 60mm 1000V

Product Description

Screwdriver 1000V 60MM #0 Phillips

Screwdriver Features

- Handles are made from two materials, which provide a soft grip, with a sturdy handle
- Blade is made from high grade alloy steel
- Range can be purchased individually or in sets

Standards Compliance

- Designed, tested and compliant to VDE, GS and the EN/IEC60900 standard for full 1000V protection
- The test process for these screwdrivers is a 10,000V immersion test in a water bath as part of the manufacturing process. At this voltage there must be insignificant current leakage, or tracking
