

Kincrome K10315 - Dual Wireless Charging Pad

Product Description

The KINCROME lighting range is perfect for any trade professional, whether you are in the workshop or out on an adventure.

The KINCROME lighting range consists of handy Penlight Torches through to Under Bonnet Work Lights. These lights are heavy duty in construction, feature long run times and high light outputs and are perfect for your next job where a reliable lighting solution is required.

The Wireless-Charging lights are designed to work with Kincrome wireless charging pads and give you a designated space to charge your torch when you put it down rather than needing to plug it in every time.

The charging pads feature patented pull-out holders to charge your compatible mobile phone and provides a safe magnetic home for your lights when not in use.
