

Cabac KAM2 - Swivel Blade Stripper 28-35mm

Product Description

Swivel Blade Stripper

The KAM range of strippers are used to strip circular cables. They have a unique cranked swivel blade that automatically swivels when the operator changes the strip direction from the circular cut to the longitudinal cut. They have an adjustable depth of cut. There are three basic sizes for various cable ranges, and the KAM1/K has a knife included. Spare blades are available.

- KAM2 - 160mm, 100g
