

Cabac SSTTT2 - Cable Tie Tensioner - Stainless Steel

Product Description

Stainless Steel Cable Tie Tensioner

This tensioner has been through years of development at CABAC, to create a robust tool at a reasonable price.

- Automatically tensions and cuts ties in one operation
- Adjustable tension for standard 4.8mm, and heavy-duty 7.8mm ties
- Low friction to ensure reduced effort
- These tools have to grip stainless steel, and as such the grip pads do wear. The general life of a set of pads is about 5000 ties. Additional spare grip pad and springs are available in a kit.
- Length: 180mm
- Weight: 660g
