

Cabac KPBK2 - Crimper Kit - 2.5 - 16mm

Product Description

Copper Lug Terminator Kit - Small

This kit has large quantities of copper lugs and links from 2.5 to 16mm² and a tool for crimping (Part No. K26), all packed in a sturdy plastic box (Part No.KPB1).

CABAC copper crimp lugs are made from 99.9%+ cu high conductivity annealed copper which gives the best electrical properties possible. They are capable of withstanding a continuous operating temperature of 155° C, which is well above the temperature properties of most lugs.

It is our recommendation that CABAC copper crimp lugs should be crimped with standard Australian tooling.

Kit Contains

- CAL2.5-5 x 25
- CAL16-6 x 15
- CAL2.5-6 x 25
- CAL16-8 x 15
- CAL4-6 x 25
- CAS2.5 x 25
- CAL6-6 x 25
- CAS6 x 15
- CAL10-6 x 25
- CAS16 x 15
- K26 x 1
- KPB1 x 1
