

Bessey TG16-2K - Quick Action Clamp 160 x 80mm

Product Description

- Net Weight: 0.655kg
- Opening 160mm
- Throat depth 80mm
- Rail 25 x 6mm
- Total Shipping Weight: 0.983kg
- High-quality profiled rail and characteristic malleable cast iron arms, serrated for reinforcement
- Integrated Bessey anti-slip system additionally ensures maximum safety
- Ideal for all applications where powerful, rigid clamping is required
- **Integrated BESSEY anti-slip system:** Maximum safety is available with the integrated BESSEY anti-slip system, when clamping with a throat depth of 80 mm or more. A set screw that is molded into the sliding arm interlocks with the serration on the rail. This effectively prevents the clamp from dislodging or slipping away
- **Reinforced malleable cast iron arms:** The characteristic high-quality malleable cast iron fixed and sliding arms, which are serrated for reinforcement, allow powerful, rigid clamping. The powder coating provides additional protection against corrosion
- **High-quality profiled rail:** The BESSEY profiled rail from our own drawing plant has been especially optimised for clamps. The profile acts as a reliable reinforcement against torsional forces, while the serration on six faces additionally prevents the clamp from slipping
- **Smooth-running spindle:** The surface-coated spindle with acme thread is particularly smooth-running, and does not bind. For even smoother, more efficient work. Noticeably more comfortable
