

Josco JSZ150100 - Polishing Wheel 150x25 2 Sect Sisal Stitched

Product Description

Josco Sisal Cutting Buff's are ideal for preparing surfaces to be polished. They have excellent cutting power when combined with a Fastcut Compound. The combination of these two products is powerful enough to remove 240 grit belt marks from steel prior to plating. It can also be very useful in removing heat scale and scratches on stainless steel, plus cutting back on brass and copper.

- Diameter: 150mm
- Folds: 100
