

## Josco JSZ200100 - Polishing Wheel 200x25 2 Sect Sisal Stitched

### Product Description

---

The Josco Sisal Cutting Buff is ideal for the surface preparation of surfaces to be polished – included light cutting back and scratch removal. They have excellent cutting power when combined with a Fastcut Compound, which is available for multiple sizes depending on whether it is used for DIY or industrial purposes. The combination of these two products is powerful enough to remove 240 grit belt marks from steel prior to plating. It can also be very useful in removing heat scale and scratches on stainless steel, plus cutting back on brass and copper.

- Diameter: 200mm
- Folds: 100
