

## Kincrome K12021 - Tap & Die Set 39 Piece Metric

### Product Description

---

Kincrome Tap and Die Sets have contents hand picked to ensure they offer the best value for money and have contents that make cleaning and cutting threads a smooth process. These sets are ideal for cleaning and cutting threads on mild steel and aluminium for a wide variety of applications. The taps and dies themselves are precision machined from alloy steel and are hardened to 58-62 HRC to ensure maximum durability and strength.
