

Kincrome MTW150F - Micrometer Torque Wrench 1/2" Drive

Product Description

Manufactured from nickel chrome plated alloy, 1/2" square drive, with reversible ratchet head. The Nm scale and Ft/lb is engraved on the barrel of the wrench. The micrometer type sleeve allows accurate preset torque levels to be set. When torque is reached the wrench produces an audible click and a release of tension. *This torque wrench is accurate to +4% of the test load as noted on the supplied certificate of calibration and has been manufactured and tested in accordance with equipment in accordance with 150 0789-1:2017. Accuracy outside the stated minimum and maximum test load is not guaranteed.

Features

- Manufactured From Nickel Chrome Plated Alloy
- Reversible Ratchet Head
- Micrometer Type Sleeve Allows Accurate Preset Torque Levels To Be Set
- Audible Click
- Blow Mould Case
- Calibration Certificate

Specifications

- Accuracy: +/- 4% of setting
- Drive: 1/2"
- Fine Scale: 1Nm
- Product Length: 450mm
- Torque Range: 42-210Nm (31.0-154.9 ft/lbs)
- Warranty: 1 Year
- Material: Nickel Chrome Plated Alloy
- Length (mm): 450
- Width (mm): 40
- Height (mm): 30
- Weight (kg): 1.8
