

Makita DPJ180Z - 18V Brushless Plate Joiner (Tool Only)

Product Description

Features

- New flat shaped top handle
- 6 cutting depths can be preset by simply rotating the depth adjusting knob (stopper)
- Connectable to vacuum cleaner
- Anti-restart function for safety (with warning lamp) -Motor does not start up when the switch is slid to 'on' even when the battery is inserted. The lamp starts blinking slowly, indicating the anti-restart function is on; and can be turned off by sliding the switch to 'off'
- Electronic current limiter (with warning lamp) for overload protection
- Easy blade replacement by loosening clamp screw on blade cover
- Adjustable angle guide - can be raised and lowered with rack and pinion mechanism, allowing for fine vertical adjustment
- Angle adjustable fence can be locked in any position between 0° and 90° with positive stops at 0°, 45° and 90°
- Dust collecting
- Compatible with 1.5, 3.0, 4.0 and 5.0Ah Lithium-Ion batteries
