

Atra Ace WO-3250A - Magnetic Drilling Machine 32mm

Product Description

- From the extremely efficient electro-magnet to the height adjustable frame with reversible feed handles, the new ATRA ACE is more compatible to user needs while offering greater operator safety.
 - Original HIBROACH cutters drastically shorten drilling time when compared to similar sized conventional twist drills. An optional One-Touch keyed chuck allows the use of up to 12mm twist drills.
 - Newly developed Over-Load shutdown, magnet open-circuit sensor, and fail-safe restart technology formerly only found on high-end Nitto Kohki automatics is incorporated on the machine to further increase drill output while keeping costs down and safety paramount.
-
- Power source (single phase): 220~240V AC50/60Hz
 - Electric drill rated power consumption: 950W
 - Electric drill rated current: 4.3A
 - Electric Drill No load speed: 530 min⁻¹ (rpm)
 - Magnet power consumption: 70W
 - Hole cutting capacity - One-touch type HI-BROACH: 12-32mm diameter, 9-50mm plate thickness
 - Magnet holding power: 9,000 N (kgf)
 - Magnet dimensions: 99 x 177mm
 - Dimensions: 318 mm x 194mm x 361mm
 - Weight: 13kg
