

Ullman HT1421 - Retaining Ring Plier

Product Description

- INTERNAL: 1/4" - 1", 7mm - 26mm
- EXTERNAL: 1/8" - 1", 3mm - 26mm
- Convert between internal and external with a quick flip of a switch
- A once relatively time consuming and complicated process is made easy by eliminating the jaw aligning pushpin process
- Double-dipped custom grip made of low-temp, high-impact material for comfort and durability
- Spring return handles
- Each pliers includes a tip kit containing five pairs of durable alloy, colour-coded, interchangeable tips and Allen wrench, all stored in handy pouch
- Also included are a set of thumb screws that can be screwed in quickly for light-duty applications
- Most user friendly convertible pliers on the market
- Will replace 10 or more of any single competitor's pliers
