

Tradeflame 211189 - Mini Soldering Torch Kit 10 In 1

Product Description

This 10 in 1 Mini Soldering Torch Kit comes packed in a handy storage case. The soldering iron is designed to run with easily accessible butane and has a glass sight window to indicate gas level. The soldering iron also incorporates flame adjustment, gas on/off switch and safety lock button. The torch can be used for soldering or as a blow torch. This kit has been designed to ensure the handyman or tradesman has everything needed to undertake jobs such as soldering, workshop repairs, electronic repairs, jewellery and even small automotive jobs.
